

## Vision Statements

- 1) Advancing our world by nurturing alignment with nature through discovering and pursuing true health and wellness.
- 2) Cultivating the art, science and spirit of healing. Liberating one person at a time, by the grace of God.
- 3) To see that every unique person is empowered to manifest their health goals, to embrace the wisdom of Nature, and to nurture their body, mind and spirit.
- 4) We will foster the principles of Chinese medicine with the ability to heal patients through the presence of nature. Patients will have the ability to improve their overall health, which in return will promote vitality and a healthy way of living.
- 5) To educate and facilitate the mental and spiritual wellbeing of local and global communities through natural, integrative approaches to holistic health.
- 6) To be a recognized expert and authority in the practice of acupuncture and Chinese herbal medicine in the United States, and to facilitate access to holistic healthcare for all people.
- 7) Enlightening is a non-stopping process of discover the outside knowledges and inner-selves. In the process of enlightening, comes the improvement. The two concepts bear causation to one another. It is my belief that no one can have any improvement without enlightening himself. The medical treatment is not only address the symptoms, it also enlighten the parties involved to have a deeper awareness and understandings.

Accomplish and complete are two sides of a coin. A practice goal will be able to accomplish until both the provider and patients completed something. It could be a complete treatment process in a short run or could be a complete adjustment of life style to pursue a long term well beings. A practice goals is accomplish under the completion of a short term or long term process.

- 8) Using holistic practices to help each individual explore and rediscover the power of healing. By generating trust in the inner wisdom that we each have the strength and ability to be whole, we guide each individual to lead his or her own fulfilling life.
- 9) Explore New Possibilities: A natural approach to healing the mind and body.
- 10) Provide a freeing space of happiness, growth, and inner blooming.
- 11) We strive to empower patients to reach their full potential by accessing the innate healing wisdom of the human body through the illuminating science of traditional medicine. We engage and nurture individuals on every level of their body, mind and spirit as they continue their journeys and manifest optimal health and wellbeing.
- 12) My vision for my acupuncture practice is to foster growth of alternative medicine throughout the world. Providing high quality services.  
It is my mission to provide exceptional care to my patients through Acupuncture and herbal medicine.
